## Horoscopes/Crossword Puzzle

**ARIES - Mar 21/Apr 20**  
 Do you have a lot on your mind? Is something or someone coming back into your life? Does this reflect a healthy partnership or situation from earlier on this year? There is a soothing of your soul that is being reflected in your own life decisions now. Trust the people around you.

**TAURUS - Apr 21/May 21**  
 Relentless heart, do not back down from your dreams. It is the time to push. You are in a zone, and this is a pivotal point. Whatever it is, truly look at your heart's passion. Care for others as they will care for you.

**GEMINI - May 22/June 21**  
 You might feel a bit torn between two things at this time. That is the nature of your sign, but in this case, it might be for the benefit of your growth. What is the right decision for you?

**CANCER - June 22/July 22**  
 Are you witness to something special in many capacities at this time? Are you willing to talk the talk and dance the dance? It is a careful collection of cells that are creating your own human sparkle. Let yourself find power in your own wisdom. Wise beyond your years from day one!

**LEO - July 23/Aug 23**  
 You are in a major moment of change at this time. You are in a position of authority. Taking on a lot of responsibility, because you've passed the tests of time. Embrace this, and the people that help support your vision.

**VIRGO - Aug 24/Sept 22**  
 You might have to go over something again. This might be revisiting an old conversation or a previous situation that you though you put to bed. Make sure you've got all your paperwork handy. Your steady nature will take care of business.

**LIBRA - Sept 23/Oct 23**  
 You might find a challenge or some competition going on in your immediate friend circle. You are not the type to get involved in spats or arguments. Generally, however this might be cause for you to feel a bit more emotional than normal.

**SCORPIO - Oct 24/Nov 22**  
 Gratitude is the attitude. There is a lot to be grateful for here as the Moon moves into your sister sign of Cancer. A sigh of relief can be had later on as you might have a situation in your life that brings you great stress. This will turn out alright, but now is the time to focus on the truth.

**SAGITTARIUS - Nov 23/Dec 21**  
 Determination and will are pouring into your sign at this time. What is all this Leo energy teaching your jovial spirit? What is the lesson of self-expression for your own time and generosity? There is a great lesson here!

**CAPRICORN - Dec 22/Jan 20**  
 You might feel a bit more like a fire sign these days. This could invigorate you or cause great distress. You might be experiencing the energy through other people around you. What is it you need to say? Have you said it? It might be up to you to fully reach out!

**AQUARIUS - Jan 21/Feb 18**  
 Things are shifting into place. Even with communication possibly a bit haywire, you are keeping yourself together. Careful checks on your spending and possibly reviewing how you use your energy might help in the long run.

**PISCES - Feb 19/Mar 20**  
 Your vision might seem a little clouded at this time. The Moon will sort you out a bit later on, and you might feel like you need to sleep for days on end. Whatever you need to do for you, do it now. Nobody else is going to let up on you, so you might as well make that call. Turn off all electronics if you need to, or go on a private retreat!
